

## Stakeholders :

- Customer : will get benefits from discounts.
- product owners : customer will have many options to deal with through google maps and not only the option they know
- Team members : who are working to develop this app.
- Directors or suppliers : the ones who are responsible for supplying the project.
- Deliverers : as most of orders will be online this will load the work on deliverers.
- Banks : as all deals will be online and by bank transfers, the bank won't need to transport real cash.
- Cash transporters : drivers or cash transporters won't be working like before.
- IT support : will keep track of the application and get any complaints.
